

# ALUMINIUM TOWER OLDFIELDS - PRO SERIES

Providing a robust, safe and stable mobile or static work platform.

Oldfields ensures every frame has been built to last with exceptional quality and long life durability. This means safer and more productive scaffolding with improved strength and a longer service life. Tested and approved to meet the Medium Duty (consists of a Safe Working Load of 450kg per bay, per working level) requirements of Australian/New Zealand Scaffolding Standard AS/NZS1576.3-1995.

## FEATURES

- Manufactured from high strength aluminium.
- Fully TIG-welded frames and decks.
- Self-locking spring loaded brace hooks.
- Decks manufactured with slip resistant plywood.
- Robust 200mm swivel castors with directional brake.
- Walk Through Frames available for special projects.

## SPECIFICATIONS

- Deck Lengths: 3.0m / 2.4m / 1.9m / 1.2m
- Frame Widths: 3.0m / 2.4m / 1.9m / 1.2m / 0.7m\*
- Frame Heights: 2.0m / 1.6m / 1.2m & 0.8m / 1.0m Guardrail Frame
- Transom spacings: 413mm
- Tubes (Outside Diameter): 50.8mm

*0.7m wide towers are rated Light Duty only  
(safe working load of 225kg)*

Using high strength 2.2mm wall thickness tube, all joints are welded for maximum strength and durability.

Robust frames with easy fit spigots.

Large 200mm (8") castor allow towers to be easily relocated.

New WHS Regulations in some States require decks at 2m vertical intervals during erection and dismantling
